About Us

The roots of The Ojeda Group can be traced back to 1948 when Mr. Edel Ojeda Sr established a refrigeration service business. His expertise in the field led to the production of industrial kitchen equipment, and by 1968, the mass production of freezers and refrigerators began, giving birth to Refrigeración Ojeda. With a legacy of over 78 years in the refrigeration industry, Refrigeración Ojeda has evolved into a multi-divisional group known today as The Ojeda Group.

The Ojeda Group consists of four companies: Refrigeración Ojeda, Ojeda USA, FrigoPanel, and IsoDoors. The company covers the entire US, Canada, Mexico, and Central America. With over 350 employees, it continues to grow and expand its product line, always having innovation as an essential part of our vision. The Ojeda Group has remained a family-owned company, now operated by the next generation of Ojedas, and we are excited about the future and the potential for further growth and expansion.

Established in 2005, Ojeda USA prides itself on delivering high-quality, refrigerated merchandising solutions for businesses in the food service, grocery, and convenience store industries. We are committed to sustainability and environmental responsibility. Our products are designed with energy efficiency in mind, reducing our customers' operational costs and having a low environmental impact.

The combination of over 78 years of experience in manufacturing commercial refrigeration and more than 20 years of serving the U.S. market has made us one of the industry leaders in self-contained merchandising solutions, reinforcing our commitment to quality and innovation. With a strong presence, we continue to deliver refrigerated merchandising solutions that meet the needs of businesses across North America.

Markets & Industries

Your Trusted Partner in Refrigerated Merchandising Solutions

Business & Industry

Transform Workplace Dining with Sleek & Efficient Merchandising Solutions

Elevate your corporate dining solutions with Ojeda's sleek and efficient refrigeration equipment. Our customizable display cases and reach-in coolers ensure you can provide fresh, chilled options to employees throughout the workday. Our commercial refrigeration systems are engineered with maintenance-free condensers and easy-access components, offering the durability and longevity required for high-traffic workplace environments.

Convenience Stores

Drive Impulse Purchases with Compact & Visually Appealing Merchandisers

Increase impulse sales and keep your products fresh with Ojeda's range of compact refrigerated merchandisers. Our innovative display cases and novelty freezers are designed to maximize visibility and accessibility in high-traffic areas, making them perfect for grab-and-go items and cold beverages.

Grocery Stores

Showcase Fresh Products with Durable & Versatile Refrigerated Display Units

Elevate your product presentation with Ojeda's versatile line of refrigerated merchandisers. Designed for grocery retailers, our robust display units showcase fresh foods, meats, and prepared items while delivering exceptional value. Ojeda's commercial refrigeration solutions combine durability with cost-effective performance, helping you maximize sales without compromising on quality.

Hotels

Enhance Guest Satisfaction with Elegant Merchandising Solutions

Enhance your guest experience with Ojeda's elegant refrigerated merchandising solutions. Our quiet, reliable units are perfect for lobby shops and buffet areas, ensuring your guests always have access to chilled refreshments and snacks. Designed with durability in mind, Ojeda's refrigeration systems provide long-lasting performance, making them an excellent investment for hotels looking to elevate their service offerings.

K-12 Solutions

Healthy Choices Made Easy with Ojeda Merchandisers

As a K-12 nutrition leader, you're balancing participation, speed of service, budgets, and ever-changing guidelines, all while trying to make the "healthy choice" the easy choice for students. The ALPA open-air merchandiser series from Ojeda is built for K-12, giving you a budget-conscious way to showcase fresh, appealing grab-and-go items that fit right into your existing serving lines or new builds.

Quick Service Restaurants (QSR)

Optimize Food Freshness & Presentation with Reliable Merchandising Equipment

Enhance your QSR operations with Ojeda's reliable and efficient refrigerated merchandisers. Our durable merchandisers and freezers are engineered to withstand the rigors of high-traffic environments while maintaining optimal food freshness. Designed with both functionality and aesthetics in mind, Ojeda's units attractively display your chilled and frozen menu items, potentially boosting sales and customer satisfaction.

Leading the Way in **Energy Efficiency**

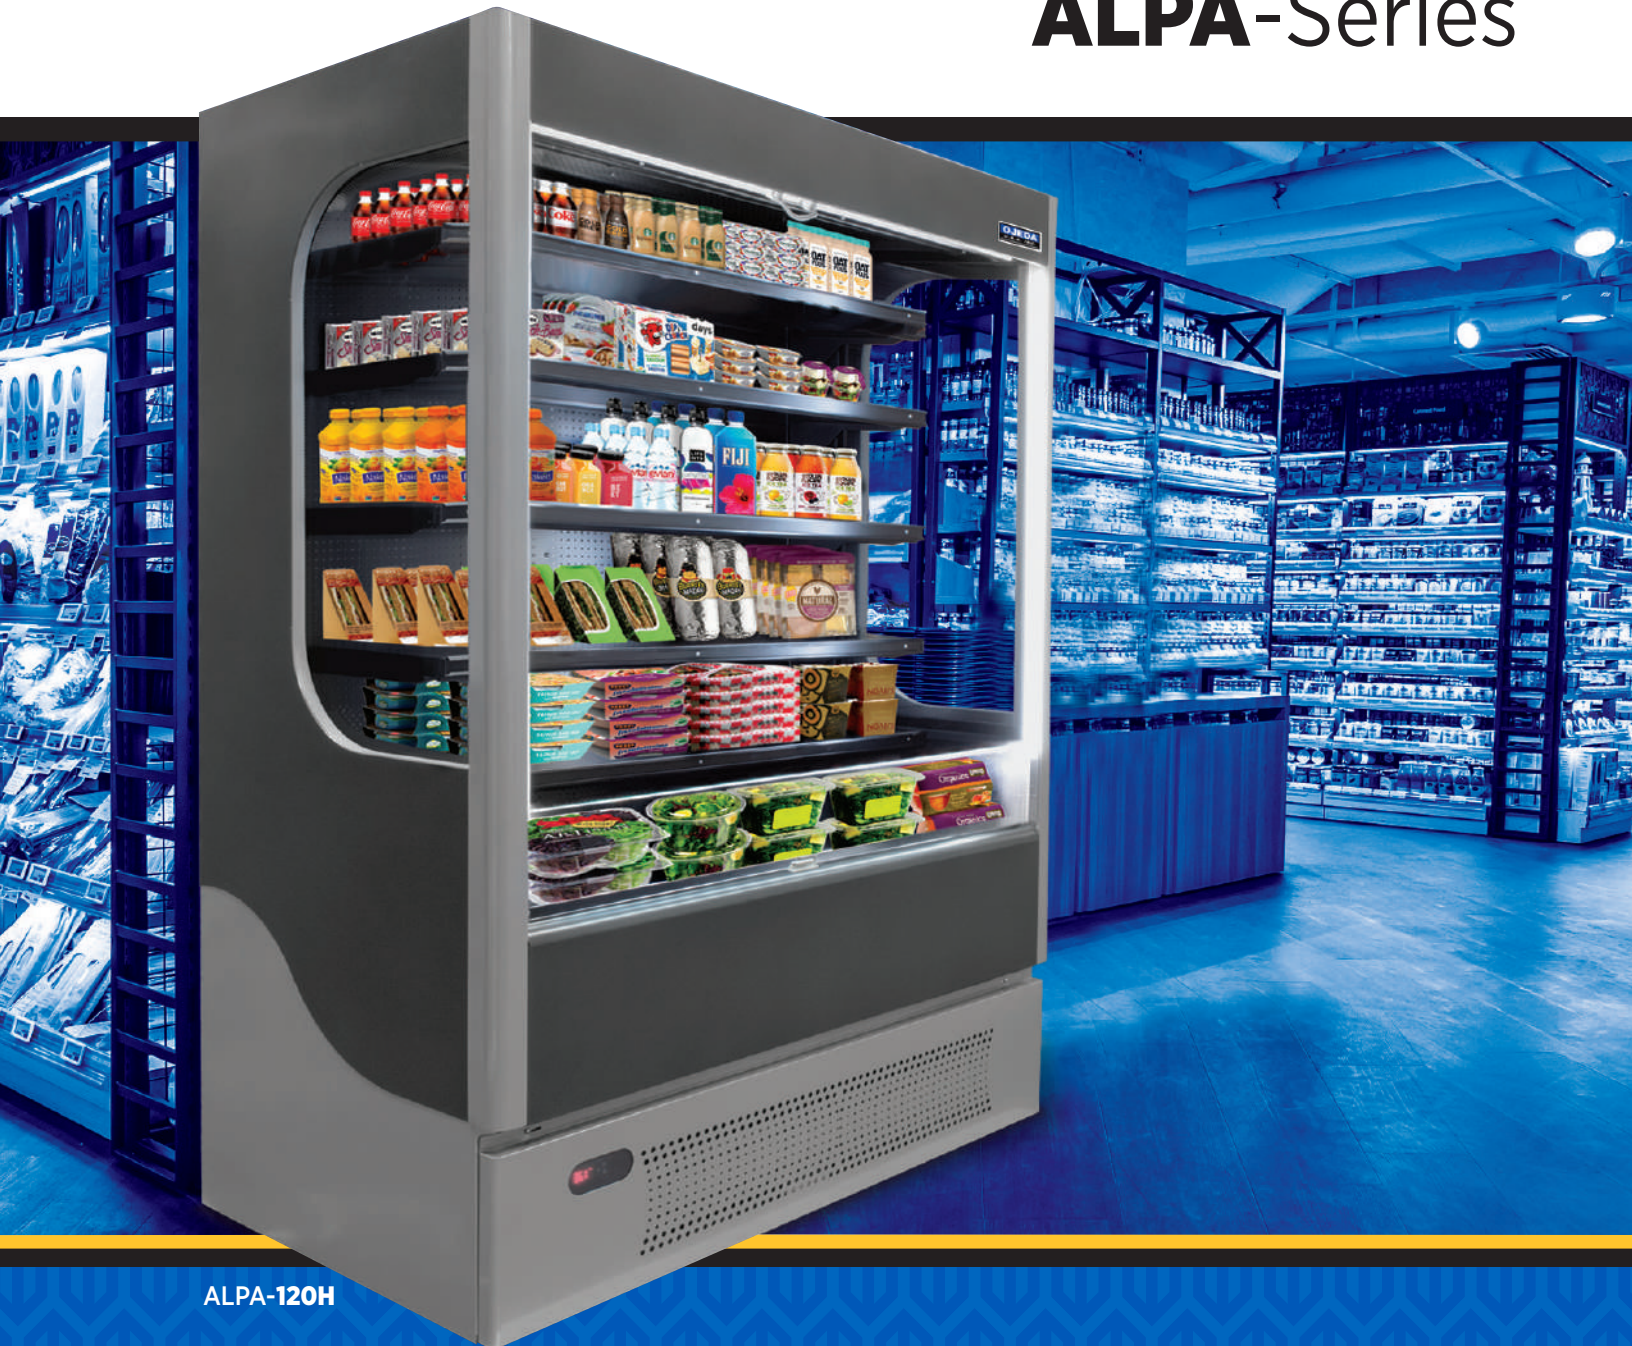

We've built a legacy of innovation and responsibility driven by our commitment to energy efficiency and sustainable solutions. Since our company's creation, energy savings have always been a core priority in our product designs. As the market evolves, so do we—by continuously integrating the latest cutting-edge components that minimize energy consumption without compromising performance.

In 2008, we became the first company in the Americas—and one of the first globally—to manufacture self-contained refrigeration units using R290 refrigerant, a natural refrigerant with minimal environmental impact and a Global Warming Potential close to zero. This was not just a technological milestone but a significant step forward in environmental responsibility.

As global energy demands rise and environmental regulations become stricter, the need for sustainable refrigeration systems has never been more critical. By choosing Ojeda USA, businesses can feel confident investing in systems designed with the future in mind—products that use less energy, lower operational costs, and reduce environmental impact.

Open Air Merchandisers **ALPA-Series**

ALPA-120H

Are you looking to enhance the operational convenience and efficiency of your convenience store or standalone setup? Look no further than our innovative application tailored specifically for these environments. Our open air product line offers a diverse array of different models that can bring flexibility and help promote your products. With impulse purchasing holding significant importance nowadays, our grab and go display designed solution is sure to meet your needs. Don't miss out on this opportunity to streamline your operations and boost your sales.

Open Air Merchandisers

ALPA-Series

Features

MAINTENANCE FREE CONDENSER

The finless spiral condenser design prevents dust/dirt buildup allowing maximum long term efficiency.

ELECTRONIC TEMP CONTROL

The Intelligent temperature control is programmed to ensure the correct operation of the equipment and maintain products at an optimum temperature 34°F to 40°F.

STEEL CONSTRUCTION

Robust steel construction minimizes the use of plastic materials resulting in an environmentally friendly design.

NIGHT CURTAIN

Standard pull down night curtain reduces energy consumption during periods of inactivity.

120 Volt

All Ojeda models feature a 110/120 Volt system standard, ensuring hassle-free plug and play for our customers.

LED LIGHTING

LED lighting provides long lasting energy efficient lighting with minimal heat output.

SLIM-Models

Operation temperature 34°F to 40°F

Enhance any space with our Slim design featuring *LED lighting* in every shelf.

Bunker Freezers **NBH & DIP-Series**

NBH-68

Ojeda USA bunker freezers and dipping cabinets are designed with versatility in mind, offering various size footprints to seamlessly fit any store layout. With features like internal LED lighting for better product visibility, durable steel construction for long-lasting use, and the eco-friendly R-290 refrigerant, these units are both efficient and reliable. Ojeda's 8 and 12 flavor dip cabinets are designed to maximize both display and storage efficiency. With ample capacity to showcase a variety of flavors, these cabinets are ideal for any store or café with a perfect blend of functionality and style.

Bunker Freezers

NBH & DIP-Series

Features

R-290 REFRIGERANT

Equipped with R-290 refrigerant, an eco-friendly alternative that meets the EPA's environmental impact regulations.

ADJUSTABLE THERMOSTAT

Freezers are equipped with a mechanical thermostat that allows the users to adjust temperature that best fits their products needs. Set from factory at -4°F.

STEEL CONSTRUCTION

Robust steel construction minimizes the use of plastic materials resulting in an environmentally friendly design.

Sliding Lids

Low-E tempered sliding glass lids reflect light and reduce the heat load inside the cabinets. Each unit comes with a lock and keys for added security.

HIGH IMPACT ABS FRAME

Made of a high impact durable plastic, this frame assures a long-term life span.

INTERNAL LED LIGHTING

LED lighting in our bunker freezers ensures products are beautifully illuminated, enhancing visibility and creating an appealing display for customers.
